Construction Claims:
Public Contract Code Section 9204 and 20104 et seq.
7-5.  **Permits and Licenses**

Attention is directed to Section 7-1.04, “Permits and Licenses,” of the Standard Specifications and these Special Provisions.

The Contractor shall have at least two employees trained in confined space entry regulations CAL/OSHA Confined Space Regulations, Title 8 CCR GIS0 5156, 5157, and 5158 at the site whenever there are open trenches or underground work going on. It is understood that all fall protection, retrieval and atmospheric monitoring equipment shall be furnished and maintained by the Contractor at the Contractor’s expense. This shall include but not be limited to cost associated with compliance with Confined Space Entry Regulations shall be at the expense of the Contractor.

The Contractor’s attention is directed to the fact that, prior to start of work either within the State of California right-of-way or affecting State of California facilities, the Contractor will be required to obtain an Encroachment Permit (See Appendix B) at the following State of California, Department of Transportation office:

**CALTRANS, DISTRICT 04**
Amjad Naseer, Senior Permit Engineer
111 Grand Avenue
Oakland, CA 94623

County shall deduct $5,000 from Contractor’s Progress Payment until Contractor has provided proof of obtaining encroachment permit.

Full compensation for conforming to the requirements of this permit, including the cost of the permit, if any, shall be considered as included in the unit prices paid for the various Contract items of work, and no additional compensation will be allowed therefore.

7-6.  **Highway Construction Equipment**

Attention is directed to Section 7-1.01D, “Vehicle Code,” of the Standard Specifications and these Special Provisions.

Pursuant to the authority contained in Section 591 of the Vehicle Code, the County has determined that, within such areas as are within the limits of the project and are open to public traffic, the Contractor shall comply with all the requirements set forth in Divisions 11, 12, 13, 14 and 15 of the Vehicle Code. Attention is directed to the statement in Section 591 that this section shall not relieve him or any person from the duty of exercising due care. The Contractor shall take all necessary precautions for safe

PERMITTEE

and subject to the following. PERMISSION IS HEREBY GRANTED to:
Perform traffic control for chip seal project, on State Highway 04-SM-1, at various post miles, in the San Mateo County.

A minimum of 7 days prior to the start of work under this encroachment permit, notice must be given to State Representative Fred Farid, 111 Grand Avenue, Oakland, CA 94612, at fred.farid@dot.ca.gov or (415) 330-6537, weekdays between 7:00 a.m. and 3:30 p.m., excluding holidays.

Notwithstanding General Provision 35, lane closures and other activities that may cause a traffic impact requires the permittee to apply for and obtain a closure ID prior to the start of work. Requests must be submitted using the attached “Encroachment Permit Work Scheduling Request Form.”

THIS PERMIT IS NOT A PROPERTY RIGHT AND DOES NOT TRANSFER WITH THE PROPERTY TO A NEW OWNER.

The following attachments are also included as part of this permit (Check applicable):

× Yes □ No General Provisions (TR-0045)
□ Yes X No Utility Maintenance Provisions
□ Yes X No Special Provisions
□ Yes X No A Cal-OSHA permit, if required: Permit No. ________
□ Yes X No As-Built Plans Submittal Route Slip for Locally Advertised Projects
□ Yes X No Water Pollution Control Documents (SWPPP/WPCP/TR-0400)

(If any Caltrans effort expended)

□ Yes X No The information in the environmental documentation has been reviewed and considered prior to approval of this permit.

This permit is void unless the work is completed before January 1, 2020.

This permit is to be strictly construed and no other work other than specifically mentioned is hereby authorized.

No project work must be commenced until all other necessary permits and environmental clearances have been obtained.

Permit Engineer: Roya Azarmi

APPROVED:

DAVID SALLADAY, District Permit Engineer

BY:

AMJAD NASEER, Senior Permit Engineer

ADA Notice For individuals with sensory disabilities, this document is available in alternate formats. For information call (916) 654-6410 or TDD (916) 654-3880 or write Records and Forms Management, 1120 N Street, MS-89, Sacramento, CA 95814.
In addition to the attached "Encroachment Permit General Provisions" (TR-0045), “Storm Water Special Provisions for Minimal or No Impact (SWSP)” (TR-0400), and “Encroachment Permit Underground Utility Provisions” (TR-0163) (available at http://dot.ca.gov/trafficops/ep/docs/Appendix_K_(WEB).pdf), all work permitted herein must comply with the following provisions:

Certain details of work authorized herein are shown on the plans and specifications submitted by the permittee, and attached to this encroachment permit.

A pre-job meeting with the State Representative is required at least 7 days prior to the start of any work under this encroachment permit. Failure to do so may result in permit revocation with no prejudice.

The permittee must provide the stage construction plans, traffic handling plans, work schedule, and a list of all subcontractors to the State Representative at the time of the pre-job meeting.

Notwithstanding General Provision 4, construction must not begin until the contractor performing the work applies for and obtains a separate encroachment permit (referred to as a Double Permit) for the work authorized herein. An initial fee/deposit of $492.00 is required at the time of application for permit processing and inspection.

Additional inspection hours will be charged at the current State hourly rate.

Signs, lights, flags or other protective devices must not obscure the visibility of, nor conflict in intent, meaning, and function of either existing signs, lights and traffic control devices, or any construction area signs.

On conventional highways, permittee's vehicles and equipment not involved in the permitted activities must be legally located off the traveled way and not interfere with free traffic and pedestrian flow.

No vehicle or equipment must be stored overnight within the State highway right-of-way. All vehicles and equipment must be removed immediately at the completion of the day's work. Refueling of vehicle or equipment within the State highway right-of-way is strictly prohibited.

All traffic control devices must be installed, maintained, and removed by a qualified traffic control contractor.

Traffic control must comply with the 2018 Caltrans Standard Plans T9 through T14 (available at http://www.dot.ca.gov/des/oe/construction-contract-standards.html), and the California MUTCD, Part 6, "Temporary Traffic Control" (available at http://www.dot.ca.gov/trafficops/camutcd/).

One-way traffic control is authorized, Monday through Friday at anytime, excluding holidays as defined in the 2018 Caltrans Standard Specifications. Traffic control that requires a lane closure must be in compliance with the approved traffic control plans.

The permittee must place detour signs prior to the permitted activity in accordance with Caltrans Standard Specifications (available at http://www.dot.ca.gov/des/oe/construction-contract-standards.html).
Except for installing, maintaining and removing traffic control devices, any work encroaching within 3 feet of the edge of a travel lane for areas with a posted speed limit below 45mph, or 6 feet of the edge of a travel lane, for areas with a speed limit posted at 45mph or higher, requires closing of that travel lane. Any work encroaching within 6 feet of the edge of the shoulder, requires closing of that shoulder.

Do not reduce an open traffic lane width to less than 11 feet. If traffic cones or delineators are used for temporary edge delineation, the side of the base of the cones or delineators nearest traffic is considered the edge of traveled way.

If an accident or other incident (related to or not related to the permitted activity) occurs within, or close to the permitted activity, the permittee shall immediately stop work and remove traffic controls from the highway unless public health, welfare and safety is compromised by unfinished work. Only traffic control to protect open excavations may remain in place. After free traffic flow is restored, work per the provisions of the permit may be returned.

Upon completion of work authorized by this encroachment permit, the permittee must provide the State Representative with “Notice of Completion” (TR-0128) (available at http://www.dot.ca.gov/trafficops/ep/docs/Appendix_D_(WEB).pdf).

Conditional Permit Requirements

The application for a double permit must include six copies of the Traffic Control Plans, stamped and signed by a California Licensed Professional Engineer.
